

HOL-CT-FBR

COMPRESSION TOOL

DESCRIPTION

Compression tool for use with Holland compression connectors or similar (21mm closure). Each tool utilizes a ratchet mechanism that insures complete closure. CT-FBR model can be used with F, BNC, & RCA connectors.

The CT-FBR compression tool will work on any Holland Electronics SLC1855 series connector for RG59 mini-cable or the SLC59-BNC for standard RG 59.

FEATURES

- Extremely well built, ratcheting compression tool
- Every termination is absolute - the ratcheting action wont release until the connector is fully compressed
- Works with all 21MM connectors
- 2 threaded adapters that work with F/RCA/BNC
- Works with RG-59, RG-6 & Mini Coax Cable
